John N Richardson

Birth/Established: February 1837 **Death/Dissolved:** May 1902

Affiliation: Cudell & Richardson

Biography:

John N. Richardson was born in Perth, Scotland and immigrated to the United States, settling in Cleveland. He entered the office of J. M. Blackburn in 1868 and into partnership with Frank Cudell in 1871. That partnership lasted until 1890 when Cudell left the firm. Richardson continued to practice by himself. He designed several important industrial structures throughout the city, including the Woodland Avenue Street Railroad Powerhouse (now the Powerhouse at Nautica), the W. S. Tyler Wire Works, and the Broadway Mills Company Warehouse. His son, Edward Richardson, and William Jansen worked in his office in the later years of his career. He lived south of downtown on West 14th Street in Tremont. He died in 1902 of pneumonia after a short illness.
