William Stanley Ferguson

Birth/Established: May 8, 1880 **Death/Dissolved:** September 12, 1954

Biography:

William Stanley Ferguson was an architect, engineer, and inventor who was born in St. Thomas, Ontario and educated in the Cleveland Public Schools. He invented two-rope ore digging buckets, and the Ferguson Reinforced Dock, used throughout the United States. In 1906, he was a Civil Engineer for the Carey Construction Co. in East Cleveland. He became the President of the W. S. Ferguson Company in 1910. From 1924 to 1929 he was the Director of Public Service for the City of Cleveland, President and General Manager of the Memphis Hy-Lands Company, the Roland Realty Company, the Roland Improvement Company, the Weona Realty Company, and Steemoil Burner Company. He was Vice President of the Dock and Terminal Engineering Company. He was on the board of directors of the National Town and Country Club. He lived at 26151 Lake Shore Boulevard in 1930. His office was in the 1900 Euclid Building. He is listed as a registered architect in the November 1940 Ohio Architect list.
